

## Salt Salys CaP N2 90 tablets

EAN: 8437011373168 FABRICANTE: JELLYBELL

*Phosphorus and calcium compounds act on extracellular fluids. They intervene in the metabolism of all cells in the body.*

### DESCRIPTION

Phosphorus and Calcium compounds act on extracellular fluids.

It intervenes in the metabolism of all the cells of the body.

It facilitates the formation, regeneration and restoration of various tissues and structures in our body, such as bone tissue (Calcium metabolism), the formation of new blood cells (intervenes in Iron metabolism) and nerve cells.

It intervenes in the construction of connective tissue in the formation of gastric juices.

### SUGGESTIONS

It is a powerful tonic and general restorative.

For all problems arising from poor assimilation: Lack of appetite, abdominal pain, lack of development, rickets, anemia, general weakness, physical fatigue (weakness of the lower limbs) and mental fatigue (sweating in the neck and head, depression, nervous weakness).

It acts on hydrocephalus, reducing intracranial pressure.

It promotes the development and growth of children.

It acts on high levels of phosphates in the urine (phosphaturia).

In all lithiasis and calcifications of glands (prostatic hypertrophy) in which Calcium and Phosphorus are involved.

Indicated for the recovery of bone tissue and periosteum after a fracture.
