- Without alcohol.

What are the active ingredients of Jonzac high tolerance freshness deodorant?

- JONZAC THERMAL WATER

Jonzac thermal water is located 1850 meters underground and is extracted directly from its original environment. This pure, soft and hypermineralized water is also isotonic, so it perfectly respects the integrity of the skin cells. Several studies have shown its benefits for the skin: it revitalizes and soothes the skin, especially dry and sensitive skin. Skin hydration increased day after day and its quality was transformed. Enjoy all the benefits of this fantastic active ingredient thanks to our high tolerance 24-hour freshness deodorant*.

*Formulated to minimize the risks of allergic reactions.
