

Herbal Color Chestnut Hazelnut 100 gr

EAN: 4260378040152 FABRICANTE: KHADI

Immerse your hair in a delicious, warm, nutty nougat brown color.

DESCRIPTION

Khadi Nut Brown is ideal for permanent hair colouring and allows your hair to naturally revive with healthy vitality. The final result depends on your initial natural hair colour.

The secret of our hair dyes lies in the combination of high colour intensity and Ayurvedic care.

According to Ayurvedic principles, we only harvest the plants once a year, exactly when the pigments reach their maximum potency. We use only the best parts of hand-selected plants, without stems or stalks, and grind them into an ultra-fine powder using an innovative process.

Unlike synthetic hair dyes, where oxidising agents cause the hair to swell to open the outer layer of the cuticle for the pigments, in khadi herbal hair dyes the pigments envelop each individual hair like a protective layer. Thanks to the Ayurvedic care of our ingredients, the hair and scalp are nourished, vitalised and strengthened by the colouring - from root to tip. The result: beautiful, healthy hair that you can feel and see.

Khadi herbal hair dyes are 100% natural, contain no synthetic colours, fragrances or preservatives and are all certified vegan except for two shades.

The package includes detailed instructions, color powder, hat and gloves.

Easy to use

- Water at 60°C.
- Leave to act for 60 minutes.
- Easy to apply.

- Thermometer.
- Application brush.
- Bowl.

Easy to use. Wonderful effect. Khadi Nut Brown is the ideal choice for anyone who wants to combine a permanently intense colour experience with natural care without harmful chemicals. We will guide you step by step:

Wash your hair thoroughly beforehand with a naturally certified shampoo, preferably with khadi DeepCleanse Shampoo.

Mix the walnut brown powder with warm water at 60 degrees until it becomes creamy and all the powder particles have completely dissolved. Apply the cream evenly to the hair, strand by strand, using a brush or your hands (wear the gloves provided and preferably face down in the shower or bath). If you only want to dye your roots, skip the lengths and ends.

Leave the color on for 60 minutes. The longer it works, the darker the color result will be. If you have already dyed your hair with this shade and just want to refresh your color, leave the color on your hair for 15 to 30 minutes.

Rinse the herbal hair color with clean water after the reaction time. Avoid using shampoo for 24 to 48 hours so that the full color depth of your shade can develop during this time.

Aftercare tip: Use khadi ColorFinish Conditioner immediately after rinsing the colour with water to rinse out any remaining colour particles and make styling easier. After the exposure time has elapsed, rinse the hair thoroughly again with lukewarm water.

Tip for a perfect finish: Before you wash your hair for the first time after 24-48 hours, we recommend that you fix the colour pigments in your hair with khadi ColorCare hair oil. This means that your khadi shade lasts much longer and the colour depth is intensified. To do this, distribute the oil evenly throughout your hair and leave it to work for at least 20 minutes. Then wash it out with a silicone-free, natural shampoo, for example our khadi ROSE REPAIR.

Note: Every hair is unique, just as we are all different. Carefully test your herbal hair color on an inconspicuous test strand to achieve the best results for your individual hair.

Herbal Color Chestnut Hazelnut 100 gr

EAN: 4260378040152 **FABRICANTE:** KHADI

Safety Warning: Not intended for children. Keep out of reach of children! Test on skin 48 hours before use to prevent allergic reactions. Use only on intact skin. Avoid contact with eyes. Rinse immediately if product comes into contact with eyes. Do not use to color eyelashes, eyebrows, beard. Do not inhale powdered dust.
