Almonds are a jewel of the Mediterranean diet, a fruit that collects and transforms the sun's energy. Almonds provide, first of all, energy in the form of carbohydrates, but they also contain, among other things, magnesium - which keeps teeth and bones strong and reduces anxiety and insomnia -, potassium - which regulates blood pressure and protects the cardiovascular system -, phosphorus - which provides physical and mental energy and improves memory -, vitamin E - a natural antioxidant -, vitamins A and B, calcium, iron, zinc...

Our almond cream is 100% plant-based and suitable for vegans, recommended for those intolerant to milk of animal origin and to improve digestion. In addition, all these benefits come with an exquisite flavour.

**Allergen information: may contain traces of other nuts.**

### HOW TO USE
