

Anthelios UVMune 400 SPF50+ Tinted Moisturizing Cream 50ml

EAN: 3337875797689

FABRICANTE: LA ROCHE-POSAY

Moisturizing tinted sunscreen. DERMATOLOGICAL RECOMMENDATION SPF50+ / UVA-PF 35, a minimalist formula that does not compromise protection. Its broad-spectrum protection protects the skin from UVA and UVB rays and helps prevent damage caused by infrared-A and pollution. Very resistant to water and sweat. Anti-itchy eyes.

DESCRIPTION

BENEFITS :

- UV protection. Protects the skin from ultra-long UVA rays* up to 400nm thanks to the Mexoryl 400 UV filter.
- High tolerance formula. For sensitive or reactive skin. Also suitable for skin prone to allergies, especially to the sun. Unscented. It can be applied around the eyes. Anti-itchy eyes. Hypoallergenic.
- Daily hydration. Moisturizes daily and leaves a light, tinted finish.

HOW TO APPLY THE PRODUCT:

- AMOUNT. Amount of product equivalent to the size of a pearl for each area.
- WHEN. 20 minutes before the exhibition. As the last step of your skin care routine.
- WHERE. Face, neck and décolleté And all exposed areas.
- APPLICATION TIPS. Shake before using.

KEY INGREDIENTS:

- MEXORYL. A sunscreen with unprecedented UV protection in 30 years; a new exclusive UV filter that protects against the most insidious UV rays: ultra long UVA*. * [340-400nm] = long UVA/ [380-400nm] = the end of the UV spectrum which we call ultra-long UVA
- NETLOCK TECHNOLOGY. Very high protection in an invisible texture. With a non-greasy, non-sticky formula. Its microdroplets combine to form a strong, homogeneous, very resistant protection that does not migrate.
- XL-PROTECT. A patented sun protection technology, which provides very high broad-spectrum UVB/UVA protection and helps protect against pollution and infrared damage.

Validity after opening: 12 months. Always consult the manufacturer's instructions.
