Foundation year: 0

Hausmann is specialized in nutritional supplements, phytotherapeutic derivatives and fatty acids. Labmar is the Hausmann range that is specialized in fatty acids.

DESCRIPTION

Hausmann Galénica has three divisions: **Labmar**, which specializes in fatty acids; Botania, which includes phytotherapeutic derivatives; and Hausmann tec, which selects the best nutritional supplements.

Fatty acids obtained by the latest extraction techniques, allowing for **the highest levels of purity and bioavailability.**

Only raw materials of the highest quality

galenic

Behind each product there is an exhaustive work of bibliographic documentation and research carried out by experts at both the health and university level.

Hausmann Galenica, natural food supplements

We are a company made up of a team of doctors, biologists, university professors and researchers concerned with health and well-being. We believe that in order to develop preparations it is necessary to have highly qualified professionals in the sector, committed to an innovative philosophy: **to offer the best.**

What makes us different ?

Honesty and demanding work in everything we do.

- **Sustainability:** WE PREFERABLY SUPPORT PRODUCERS WHO RESPECT ENVIRONMENTAL REGULATIONS.
- **Technology:** We only select producers who use the most innovative techniques to obtain our active ingredients.
- **Quality:** We establish collaborations with universities and research centres, we talk to our suppliers and visit them regularly, seeking quality in everything we do.
