The LCN laboratory, Nutritional Complements Laboratories, produces nutritional supplements to correct micronutritional imbalances. LCN nutritional supplements are suitable for maintaining optimal health at all stages of life.

DESCRIPTION

The LCN Laboratory, Nutritional Supplements Laboratory, produces nutritional supplements that provide us with balanced sets of micronutrients and metabolites derived from them (so that we can enjoy optimal health). The LCN Laboratory is led by a medical-scientific team expert in micronutrition , with more than 20 years of clinical experience.
