

Colladeen® 60 Tablets

EAN: 5055148404376 FABRICANTE: LAMBERTS

Colladeen® Lamberts provides 160 mg of grape and blueberry anthocyanidins. Protects and repairs collagen.

DESCRIPTION

Collagen is the most abundant protein in the body and is the protein that forms connective fibers in tissues such as skin, ligaments, cartilage, muscles and capillaries. When collagen is damaged (free radicals, sunlight, etc.) tissues can lose their strength and elasticity.

Collagen status is highly dependent on the nutrients in our diet, and research indicates that anthocyanins play an active role in protecting the body's collagen. That's why we use a level of anthocyanidins that reflects this research.

Colladeen® Maximum Strength from LAMBERTS® is one of the most concentrated sources of anthocyanidins on the market, providing 160 mg of anthocyanidins (from grape seed and blueberry extracts) per tablet. It is recommended by 70% of professionals, making it a best-selling product.

Anthocyanidins (and proanthocyanidins) are a group of natural plant compounds found in dark-skinned fruits. They are the natural pigments responsible for the blue and red colors of fruits and berries. Anthocyanidins have been a considerable focus of scientific research, confirming that these compounds are important components in a healthy diet. Plants provide endless phytochemical compounds, still currently completely unknown. Their best ingestion and efficacy is recommended in the form of high-quality, standardized extracts.

The term anthocyanin was proposed in 1835 by the German pharmacist Ludwig Clamor Marquart (1804-1881) to describe the blue pigment of red cabbage (*Brassica oleracea*). In fact, anthocyanins include not only the blue pigments of plants but also the red and violet ones.

Contains naturally occurring anthocyanidins (extracted from grape seeds and blueberries). Anthocyanidins are safe natural flavonoids as they are not known to interact with medications.

Round tablet with pink coating.

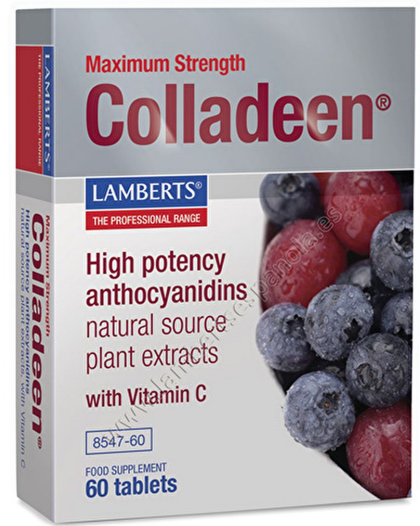

Each tablet provides:

Anthocyanidins	160 mg
----------------	--------

Colladeen® 60 Tablets

EAN: 5055148404376 FABRICANTE: LAMBERTS

(from extracts of Grape Seed and Blueberry)
Vitamin C 20 mg
