

## Cranberry 60 Capsules

EAN: 5055148414177 FABRICANTE: LAMBERTS

*Cranberry is a nutrient whose effectiveness is supported by numerous studies for the treatment of cystitis and recurrent urinary tract infections, preventing their chronicity. Due to its non-toxicity, it can be administered in conjunction with other antimicrobials and its consumption does not destroy or alter the intestinal flora.*

### DESCRIPTION

Cranberry capsules. Maximum concentration, with vitamin C, which contributes to the normal function of the immune system. One a day.

The cranberry variety used is *Vaccinium Macrocarpon*. The cranberry is a plant from the Ericaceae family, native to the wetlands of the northeastern United States and southeastern Canada. It is a shrub with thin branches up to 20 cm high, which spreads over the ground like a mat. It has green leaves in summer and bronze in winter. The fruits are spherical berries 9 to 14 mm in diameter, dark red in color and spicy red in flavor. Its fruits, in addition to having nutritional and therapeutic value, also protect the soil from erosion.

Native peoples in New England (Northeastern USA) used it extensively in their traditional medicine for the treatment of wounds (in the form of poultices), urinary disorders and diarrhea, and in eastern North America, native peoples used its fruit as food. One of these people taught its use to the English in 1620, and since then it has been incorporated into the traditional Thanksgiving holiday.

### Each capsule provides:

Vitamin C	40 mg
Cranberry	18,750 mg
(Providing 375 mg of a 50:1 extract)	

**Suitable for vegetarians and vegans and free of lactose and gelatin.**
