

## Hawthorn 2500 mg 60 Tablets

EAN: 5055148401795    FABRICANTE: LAMBERTS

*Hawthorn 2500 mg (Lamberts) is a dietary supplement that contributes to the normal function of the heart. Thanks to its active compounds, it can also be used to improve circulation or promote the correct supply of nutrients. It also supports the maintenance of blood pressure at normal levels.*

### DESCRIPTION

Hawthorn, a member of the Rosaceae family, is a shrub that can be found in gardens and wild hedges.

Hawthorn has been traditionally used by herbalists for hundreds of years, and today it has become one of the most popular plants in the Western world, with many articles documenting its important properties. Modern extracts mainly use the leaves, flowers and fruits which contain various bioflavonoids and proanthocyanidins.

The active compounds in hawthorn are a series of flavonoids, including rutin and proanthocyanidins. These compounds are highly concentrated in the leaves and flowers of the plant.

For this reason, LAMBERTS® Hawthorn extract is obtained from these aerial parts of the plant. LAMBERTS® extract is standardized to a flavonoid content of 10 mg per tablet.

### Pink oval coated tablet.

### Each tablet provides:

Hawthorn (provides 500 mg of a 5:1 extract)	2500 mg
providing flavonoids	10 mg

**Suitable for vegetarians and vegans and free of lactose and gelatin.**
