

## Neuro-Guard 60 tablets

EAN: 5055148414504

FABRICANTE: LAMBERTS

*A synergistic combination of B vitamins that contribute to the normal functioning of the nervous system.*

### DESCRIPTION

This product provides three B vitamins (B1, B6 and B12).

Vitamins B6 and B12 are included in their methylated states (active methylated forms) ready to be utilized by the body, since a significant proportion of the population cannot utilize the unmethylated versions.

Neuro-Guard provides higher levels of B1 and B12 than many B vitamin complexes. These nutrients work synergistically to support normal nervous system function, normal psychological function, normal red blood cell production, and a reduction in tiredness and fatigue. Maintaining normal nervous system function is important for maintaining normal neurological function.

With significant levels in just one tablet per day, this formulation may be especially beneficial for seniors, those following a vegetarian or vegan diet, or those with specific concerns.

- Synergistic combination of vitamins B1, B6 and B12.
- Methylated forms of B6 and B12, ready to be used by the body.
- With high concentration of vitamin B1 for its contribution to the normal function of the nervous system.
- Vitamin B6 to reduce tiredness and fatigue, along with vitamin B12 for normal neurological function.
- Significant levels of B1 and B12 compared to many B vitamin complexes.

Presentation:

Round tablet with off-white coating

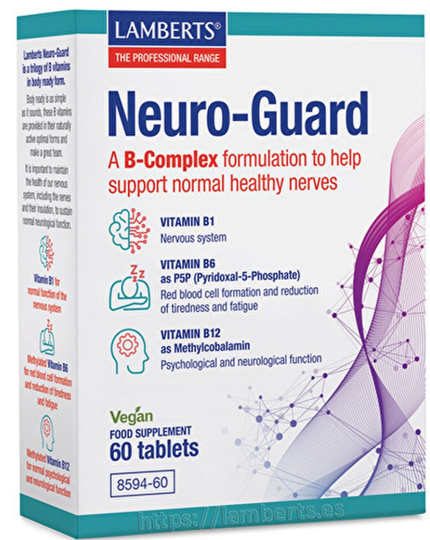

### Each tablet provides:

Thiamine (Vitamin B1)	100 mg
Vitamin B6	12 mg
