

Vitamin B12 100 Tablets

EAN: 5055148401825

FABRICANTE: LAMBERTS

Vitamin B12 100 mcg in the form of Methylcobalamin. Pure grade. Supports the nervous system, helps normal psychological function and more...

DESCRIPTION

Our Vitamin B12 is created through a fermentation process, and no animal products are used.

The raw material comes from various countries, most commonly from Europe.

It is suitable for both vegetarians and vegans.

Vitamin B12 is a complex substance with the mineral cobalt at its core.

This vitamin was first isolated from the liver in 1948 and is necessary for DNA synthesis and normal homocysteine metabolism. However, in cases of achlorhydria (absence of hydrochloric acid in the stomach), this vitamin may not be able to be extracted from food.

Vitamin B12 is found primarily in animal foods, such as meat. For this reason, health professionals often recommend it to vegetarians and vegans.

It is fundamentally involved in the rapid regeneration of bone marrow and erythrocytes.

Vitamin B12, iron and folic acid, all identified as haematinic factors, are vital for the proper formation of blood cells. They are also necessary for the production of the myelin sheath, as well as for a healthy cardiovascular system.

Vitamin B12 contributes:

- To normal neurological and psychological functions.
- To the normal metabolism of homocysteine.
- To the reduction of tiredness and fatigue.
- To the normal functioning of the immune system.
- To cell division.
- To normal energy metabolism.
- To the normal formation of red blood cells.

Prices valid except for changes on our website. (IVA/VAT) included. Doc. Version bf-trf-G-20241215

Vitamin B12 100 Tablets

EAN: 5055148401825 FABRICANTE: LAMBERTS

Like most B vitamins, it contributes to normal energy metabolism and to the processes that release energy from food.

It comes in small, easy-to-swallow tablets that provide 100 micrograms of vitamin B12 per tablet.

They are manufactured in the UK under strict GMP manufacturing standards.

White tablet with specks.

Each tablet provides:

Vitamin B12 (as methylcobalamin)	100 µg
----------------------------------	--------

Disintegration time:

Less than 1 hour.

Suitable for vegetarians and vegans and free of lactose and gelatin.

Allergen note

The following list of allergens are excluded: wheat, gluten, barley, soya, eggs, milk and dairy products, lactose, nuts, sulphites, celery, fish, shellfish and yeast.

Precautions

This product is not recommended for pregnant or breastfeeding women.
