Lavigor is a laboratory with the latest technological advances, which facilitate the manufacture of medicines, medical devices, food supplements and dermo-cosmetics. Lavigor products meet the highest quality standards.

DESCRIPTION

Lavigor is a laboratory based in Bizkaia, it is made up of doctors and pharmacists. Lavigor has a team of highly qualified doctors and pharmacists with more than 20 years of experience in the field of medical and pharmaceutical visits.

Lavigor is present in more than 47 countries around the world, Lavigor has injectables, medicines based on medicinal plants, health products, dietary supplements, herbal medicine and dermo-cosmetic products.

Lavigor's research and production work takes place in Bizkaia. Nutraceuticals and phytotherapy are made with standardized extracts, which ensures that they always contain the same amount of active ingredient, thus guaranteeing their safety and efficacy.

Likewise, its references in dermocosmetics are developed based on extensive clinical-hospital experience, which guarantees the care, balance and recovery of the skin.
