### DESCRIPTION

Regenhial Intim gel is especially indicated to relieve the symptoms of vaginal dryness, atrophy and related discomfort, such as itching, stinging and dyspareunia, frequently caused by: estrogen reduction, physical or chemical irritation, contraceptives, medications, treatments... In addition, It is suitable for applying after pelvic floor correction treatments, as well as to improve lubrication and facilitate sexual intercourse.

### What is the composition of Regenhial intim gel from Lavigor?

The composition of Rgenhial intim gel from Lavogor is:

- Pure and biological hyaluronic acid: moisturizing, repairing and soothing.
- Arginine: oxygenating, nourishing and repairing.
- Glycerol: Moisturizing, lubricant and emollient.

### How is Lavigor's Regenhial Intim gel used?

Apply inside the vagina with the help of the applicator, previously filled with 2ml. An application two or three times a week is recommended or it can be used daily if necessary, preferably before bedtime. After each application, remove the plunger from the cannula and wash with water. Use an applicator for each tube.
