Mahen laboratories produces natural food supplements. Mahen is very committed to the research, selection of raw materials, formulation and manufacture of its food supplements.

DESCRIPTION

Laboratorios Mahen's mission is focused on producing high-quality products. With raw materials controlled at the origin, through innovative formulation, manufacturing and distribution processes. Mahen laboratories produces high quality natural food supplements to improve our quality of life.

Mahen laboratories **beauty products** are made with the best raw materials, designed for the care of your skin, nails and hair, so that they are healthy, strong, and promote your well-being.

The natural products for the joints of Mahen laboratories can be of great help for the strengthening and **health of the bones**. These products have vitamins C and D and minerals such as calcium, which are extremely important for the proper development and health of the joint system.

The natural products for the joint, elaborated by Mahen, are made with the best plants and raw materials to help you improve circulation, relieve heaviness in the legs, small swellings and prevent varicose veins.

Mahen Laboratories produces natural products for **cholesterol and glucose**, which help our body to have good health.

The natural cosmetic products of Mahen laboratories are creams for circulation, natural creams to moisturize the skin, natural lotion for strengthening the hair and scalp and natural cream for skin blemishes.

Mahen Laboratories offers us natural products that help **defenses**.

At Mahen laboratories they offer us sports products and supplements to give us types of **muscle recovery**, isotonic products, energy products, proteins... All with formulas based on products of natural origin.

MAHEN

Sleeping well is very important for our health and well-being, which is why Mahen laboratories make natural products to sleep well and to promote rest and relaxation, which are based on natural ingredients such as tryptophan, melissa, lime, orange blossom, poppy, gryphonia, among others.

The natural products of Mahen laboratories for good digestive health are indicated to relieve minor discomfort in our **digestive system**.

Mahen makes natural products to strengthen **memory and concentration**, they are perfect to help you study, to improve concentration.

Mahen Laboratories also thinks about women and therefore produces natural products to make **climacteric and menopausal times more bearable**.

Mahen Laboratories also produces natural products to increase **sexual desire**.

Keeping fit is also something that concerns us all, and Mahen Laboratories has also thought about it, so it has a range of natural products to help us take care of our figure.

Laboratorios mahen also has a range of natural products for athletes or, for people who take care of themselves and want to strengthen their muscles, it also has a range of natural products for eyesight, **blood pressure, respiratory tract, urinary tract and vitamins and minerals**.
