

ANTI-POLLUTON AMPOULES - 7 ampoules

EAN: 8470002040854 FABRICANTE: MARNYS

Anti-pollution and anti-blue light protection blisters. For skin exposed to environmental pollution and radiation from electronic devices.

DESCRIPTION

MARNYS® Beauty In & Out ANTI-POLLUTION EXTREME ampoules are a reliable and proven cosmetic option to protect the skin from oxidative damage and premature aging caused by environmental pollution and exposure to blue light and radiation from electronic devices. Its innovative formula offers antioxidant and anti-aging protection, while hydrating the skin and improving tone uniformity. These ampoules are suitable for daily use, providing an effective defense against environmental and digital aggressors.

Benefits and Properties

The ANTI-POLLUTION EXTREME formula takes advantage of the effective combination of White Horehound, Niacinamide (Vitamin B3) and Glycogen to counteract the damaging effects of free radicals and protect the skin from environmental and digital pollution and premature aging.

White Horehound is a plant that contains a variety of phytochemical compounds such as flavonoids and terpenoids, which have anti-pollution, antioxidant, soothing and skin-protective properties.

Niacinamide (Vitamin B3) is recognized for its effectiveness as an anti-pollution agent, since it has the ability to protect cells from pollutants present in the air. Additionally, it offers anti-aging benefits and helps regulate uneven skin pigmentation.

Glycogen plays a crucial role in facilitating the repair and protection of skin cells when faced with stressors such as ultraviolet (UV) rays and blue light (HEV).

Main Features:

- **Fight Free Radicals** : The innovative formula of Anti-Pollution Extreme Ampoules combines powerful ingredients such as White Horehound, Niacinamide (Vitamin B3) and Glycogen to neutralize free radicals and protect the skin.
- **Comprehensive Protection** : White Horehound, rich in flavonoids and terpenoids, offers

EAN: 8470002040854 FABRICANTE: MARNYS

antioxidant, anti-pollution and soothing properties for the skin. Niacinamide acts as a shield against air pollutants and blue light, while Glycogen helps repair and protect skin cells.

- **Proven Efficacy** : Anti-Pollution Extreme Ampoules have been clinically tested and dermatologically tested to guarantee their safety and effectiveness. They are non-comedogenic, oil-free and absorb quickly without leaving a greasy feeling on the skin.
- **Blue Light Protection** : These ampoules are specially formulated to protect the skin from the damaging effects of blue light emitted by electronic devices. Its topaz glass container and inert atmosphere ensure the conservation of its antioxidant properties.

HOW TO USE

½ ampoule (1 ml), once a day, preferably in the morning, on clean, dry skin, before the usual cosmetic treatment. Avoid the eye contour.

Instructions for use of the ampoules:

Shake before using.
Insert the protector into the blister and break the top.
Put the dispenser and uncover.
Pour 1/2 ampoule onto the palm of your hand.
Apply to face and neck.
