DESCRIPTION

What is Coconut Oil and what is it for?

It is a moisturizer that does not leave a greasy feeling. It is suitable for people with sensitive skin and scalp. It is not comedogenic. And, it is suitable for children from 3 years old.

What properties does Coconut Oil have?

coconut oil for hair

- **Conditions and hydrates** hair, leaving it **easy to comb, soft and shiny**.
- **It facilitates the restoration of the flexibility and softness of dry or damaged hair**, since it exerts a protective film effect, helping to maintain its structure and regulating the hydration of the hair follicle.
- Ideal for unruly, damaged or **frizzy** hair.

coconut oil for skin

- **Repairer** : restores the skin's natural barrier function.
- **Moisturizing** : facilitates the recovery of moisture and freshness of the skin, leaving it **soft and hydrated** .
- **Especially after exposure to sunlight**, it favors the repair of the skin's natural barrier, increasing its hydration.
- Suitable for sensitive skin.
- Does not leave a greasy feeling and is non-comedogenic (does not clog skin pores).

Coconut Oil 500 ml Doser

EAN: 8470002008519 FABRICANTE: MARNYS

Cocos nucifera oil.

How is Coconut Oil used?

As a NATURAL HAIR CONDITIONER: This oil is an excellent natural hair conditioner, even for those with unruly, dry, or frizz-prone hair. After washing your hair with your regular shampoo, simply apply it like a conditioner. You will notice how it leaves your hair flexible, soft, shiny and easy to comb.

As a REPAIRING HAIR MASK: Use coconut oil evenly on damp hair and massage gently. Let it act for 15-20 minutes before rinsing. If you have oily hair or want to repair damaged ends, apply it only from the mid-lengths to the ends and let it act for 15-20 minutes before rinsing.

For BEARD OR MUSTACHE CARE: In addition to its benefits for hair, coconut oil is also an excellent balm for beard and mustache care. Simply apply a small amount to hands, then smooth over beard or mustache to condition, hydrate and soften.

For MESSAGES AND BODY MOISTURIZER: This oil is ideal for use as a body moisturizer and in massages. For best results, apply to damp skin. It spreads easily and is quickly absorbed without leaving a greasy feeling.

For a NATURAL TAN: In summer, you can combine coconut oil with your sunscreen to facilitate a natural tan on the skin, since coconut oil does not contain a minimum protection factor.

As a NATURAL AFTERSUN: After sun exposure, apply to clean, dry or damp skin to nourish and soften skin, providing a natural and refreshing aftersun effect.

FACIAL MASK: Use it as a moisturizing, repairing and antioxidant facial mask. Apply the oil evenly on the face, avoiding the eye area and mucous membranes. Leave it on for approximately 20 minutes before removing it with water.

NATURAL MAKEUP REMOVER: Use a few drops of oil on a cotton pad and gently massage your face in circular motions to remove make-up naturally and effectively.
