It is the oil for oily or combination skin and hair. Restores the oily balance of skin and hair.

DESCRIPTION

What is Jojoba Repair Oil and what is it for?

Jojoba oil is a natural product that has outstanding beneficial qualities for skin and hair.

This oil works to restore the balance of the skin and hair thanks to its abundant content of ceramides, which play a fundamental role in regulating the production of sebum and moisture. This results in the recovery of flexibility, softness and luminosity for both the skin and the hair.

What properties does Repairing Jojoba Oil have?

jojoba oil for skin

- **Sebum-regulator.** Restores the oily balance of the skin, facilitating sebaceous control, making it perfect for **combination or oily skin**, or acne-prone skin.
- Provides **exceptional moisture management** without a greasy or sticky feel and is non-occlusive.
- Suitable for facial or body skin.

jojoba oil for hair

- **Hair conditioner.** Leaves hair easy to comb, flexible, soft and shiny and/or gives volume, lightness and shine
- It has a positive effect on the hair follicle, **improving the appearance of the hair.**
- It facilitates the **control of sebum production in the hair**, which is why it is recommended for oily hair.

What is the composition of Repairing Jojoba Oil?

Simmondsia chinensis seed oil.

Repairing Jojoba Oil 50 ml Spray

EAN: 8470002009820 FABRICANTE: MARNYS

How is Jojoba Repair Oil used?

Benefits of Jojoba Oil for the skin:

1. **DAILY HYDRATION:** Gently apply the oil to the body or face, whether wet or dry, using a light massage, until completely absorbed.
2. **MAKEUP REMOVAL:** To remove makeup, apply a few drops of oil to your hands or a cotton ball and massage onto your face, paying attention to areas with the most dirt or makeup. Then, remove the product using a cotton ball or a towel moistened with water.
3. **AFTER SHAVE:** After shaving, apply a few drops to facial skin to reduce redness and irritation that often occurs. This will leave your skin soft and protected.

Uses of Jojoba Oil for hair:

1. **CONDITIONER FOR OILY HAIR:** Apply a small amount directly to clean, damp hair, from roots to ends, massaging gently. Then, rinse the hair. You can do this once or twice a week. You can also mix about 6-7 drops of jojoba oil with your regular shampoo, wash your hair, and then rinse.
2. **MASK FOR DAMAGED AND BRITTLE HAIR:** Massage all your hair with jojoba oil and cover it with a warm towel, leaving it to act for approximately 20 minutes. Afterwards, rinse with water and proceed to wash your hair with your normal shampoo.
