

S-Exotique Tribulus Complex 30 Capsules

EAN: 8410885081766 FABRICANTE: MARNYS

Invigorates male sexual activity. A powerful combination of concentrates from the plants Tribulus, Korean Ginseng and Ginkgo biloba, associated with Zinc, Selenium and Vitamin E.

DESCRIPTION

Exotique Tribulus Complex is an excellent supplement **for men who want to contribute to their sexual performance** .

Properties of Exotique Tribulus Complex ingredients

Zinc and Selenium

Zinc and **Selenium** contribute to normal **fertility and reproduction**, to the maintenance of **normal blood testosterone levels** , and to **normal spermatogenesis**, respectively (**EFSA**).

Tribulus

Tribulus contributes to **normal sexual function** (**EFSA ON HOLD 2831**).

Tribulus terrestris is a perennial herbaceous plant native to the Mediterranean region that has a long history of use in traditional herbal medicine for the sexual area.

Its **main bioactive ingredients** are saponins, especially protodioscin. These active ingredients contained in **Exotique Tribulus Complex** are **standardized** . Thus, the **Tribulus** (*Tribulus terrestris*) in this supplement is standardized to 140 mg of saponins and 70 mg of protodioscin from the fruit concentrate.

Ginseng

Ginseng contributes to physical performance, as well as helping to **maintain satisfactory sexual relations** (**EFSA ON HOLD 2808,2671,3674,2676,3677**).

Korean Ginseng is the root of a perennial plant of Asian origin *Panax ginseng* , which derives from the Greek words 'pan', meaning all and 'axos' meaning cure, and has been used for over 500 years in Asian cultures as **a revitalizing tonic**.

S-Exotique Tribulus Complex 30 Capsules

EAN: 8410885081766 FABRICANTE: MARNYS

The main active ingredients of Ginseng are **ginsenosides**. These active ingredients contained in **Exotique Tribulus Complex** are standardized. Thus, **the Korean Ginseng in this supplement is equivalent to 150 mg of root and a minimum content of 10% ginsenosides.**

Ginkgo biloba

Ginkgo biloba contributes to the **maintenance of normal blood circulation** (EFSA ON HOLD 4304,2261).

Ginkgo biloba is a plant native to China where it has been used in traditional herbal medicine for cardiovascular well-being.

This supplement contains the **main active ingredients** of **Ginkgo biloba** in a concentrate of its leaves standardized to a minimum content of 24% flavonol glycosides and 6% terpenolactone.

Natural Vitamin E

Vitamin E contributes to cellular protection from **oxidative stress** (EFSA).

Who is Exotique Tribulus Complex recommended for?

Exotique Tribulus Complex is an excellent supplement for men **who want to contribute to their sexual performance**, to the normal maintenance of **fertility and reproduction**, to the normal maintenance of **testosterone levels**, benefiting from the antioxidant effect.

TO KNOW MORE

Sexual performance in men

- Penile erection is considered the main component of the male sexual response. The penis is composed of arterioles and capillaries, blood sinuses and smooth muscles.
- Erection occurs through a complex central and peripheral neural interaction that induces muscular and vascular changes and other perineal muscles. Sympathetic activation maintains smooth muscle

contraction (vasoconstriction) and flaccidity of the penis.

- Normal erection is initiated by external stimuli through somatic and autonomic pathways. Hormonal and endocrine factors also play an important role, mainly due to testosterone and its metabolites estradiol and 5-dihydrotestosterone, which occur at central and peripheral levels.
