### *Calendula Officinalis Oil*

#### DESCRIPTION

Calendula is a plant also known as the flower of wonders. In addition, its extraordinary aroma fascinates us, which is why we include it in many of our compositions.

Includes a dropper for easier use and a small user guide for the main essential oils.

#### How we do it:

We extract the essence using the enfleurage method. We collect the calendula flowers and place them on top of warm shea butter, let it cool and rest. Then we heat the ointment and filter the fat until we separate the aromatic part, which is the essential oil. Calendula essence, in addition to its extraordinary smell that fascinates us, "perfumes" many of our cosmetics due to its soothing properties.

**Obtained by** Enfleurage.
