EAN: 8435064511056

FABRICANTE: MON

Softness and protection with the Calendula Day and Night facial cream. Its great soothing effect on the skin thanks to its composition rich in Calendula, make it an ideal cream for the most sensitive skin and a perfect aftershave for men.

DESCRIPTION

Composition

Made with Calendula, Rosehip, organic Shea Butter and regenerating plant extracts of Tepezcohuite and Centella Asiatica.

Calendula is a plant also known as the flower of wonders. It has been used in natural medicine for centuries, but it is really on the skin where its virtues stand out the most. Studies carried out on the properties of this plant confirm that Calendula has healing effects against skin irritations, redness, inflammation, dermatosis and that it can be used to relieve eczema, psoriasis, itching and irritation. In addition, its extraordinary aroma fascinates us, which is why we include it in many of our compositions.

Shea Butter, despite its greasy appearance, is non-comedogenic (does not cause pimples) making it ideal for the care of all skin types, from the most sensitive to the oiliest.
