COSMOS NATURAL certified by Ecocert Greenlife according to the COSMOS standard available at <http://COSMOS.ecocert.com>.

### Aroma and active ingredients

With a medium olfactory note, the authentic *Lavandula Officinalis* has a special and enveloping characteristic aroma. It brings peace and tranquility to the nervous system and harmony to the mind. The essence is obtained by distillation of the flowering plant and its predominant active ingredient is 1,8 cineole.

In case of burns, apply a few drops of lavender essential oil directly. You will notice immediate relief thanks to its antiseptic properties. It soothes and regenerates the area by stimulating the growth of new, healthy cells. An effective remedy that will help heal by minimizing inflammation or possible infection of the wound.

**Lavender:** *Lavandula angustifolia*

Predominant active ingredient: 1,8 cineole.

Obtained by steam distillation of flowers.

Origin: France.

At a therapeutic level: It is a dermoprotector. Ideal for different types of skin conditions due to its
