*Natessance® aims to design hygiene and care products for body and hair that are as natural, organic and healthy as possible. Natessance® cosmetic products meet the needs of all people, whatever their age, baby, child, adult, with the greatest respect for health and the environment.*

### DESCRIPTION

Since the creation of the Natessance® brand in 1995, they have designed shower gels, shampoos and hair care products based on natural and/or organic ingredients. They have also reduced the number of ingredients to those essential to take care of everyone's health and only use natural products, mainly from organic farming. For Natessance®, simplicity is a virtue. Natessance® certified natural and organic skin care formulas are based on a particularly high percentage of naturalness and an ingredient list free of all unnecessary and harmful components. Natessance® treatments, shower gels and hygiene products contain a minimum of 95% ingredients of natural origin and are guaranteed: No silicone, No sulfated surfactant and No (ethyl) alcohol.
