FABRICANTE: NATURBITE

*Echinacea naturbite has antimicrobial properties, they stimulate the immune system. Echinacea naturbite is used for the common cold and other upper respiratory tract infections.*

### DESCRIPTION

**Echinacea naturbite** is a food supplement with excellent properties for the prevention and care of the common **cold** as well as for treating upper respiratory tract infections. The main virtue of echinacea lies in its **antimicrobial** properties against bacteria, fungi and viruses that make it a real alternative to chemical antibiotics. This plant is considered one of the best natural antibiotics. The reason for this property is due to its ability to stimulate the immune system, producing more white blood cells.
