

Folic acid 400 mcg 60 Tablets

EAN: 8436583690246

FABRICANTE: NATURBITE

Naturbite folic acid is an essential vitamin in the first months of pregnancy, if it does not have adequate amounts in the body, the risk of defects in the development of the fetus increases. It is also effective in the treatment of certain anemias.

DESCRIPTION

Naturbite folic acid is a food supplement. folic acid is a B complex vitamin, necessary for the formation of structural proteins and hemoglobin. Folic acid is a water-soluble vitamin so the body cannot store it in the long term, which is why its supplementation is recommended in case of a deficiency of this vitamin. Necessary in the first months of **pregnancy** and in case of certain **anemias**.

Prices valid except for changes on our website. (IVA/VAT) included. Doc. Version bf-trf-G-20241204
