EAN: 8436583690420    FABRICANTE: NATURBITE

*L-acidophilus naturbite is a probiotic that helps restore a healthy balance of bacteria. Probiotics are a food supplement that should be taken when taking antibiotics, since antibiotics eliminate bacteria from our body and we would be left without defenses.*

### DESCRIPTION

**L-acidophilus naturbite** is a food supplement necessary to **restore the bacterial balance** in our body, as can be the case when taking antibiotics. Antibiotics kill bacteria in our bodies, but they don't discriminate between good bacteria and bad bacteria, so the balance between good and bad bacteria can be off.
