

L-Glutamine 1000mg 60 Capsules

EAN: 8436583690710

FABRICANTE: NATURBITE

L-glutamine naturbite is an amino acid that is involved in the composition of proteins. The naturbite l-glutamine serves so that the exercised muscles do not lose volume. L-glutamine supplements may be beneficial in the case of arthritis, immunodeficient diseases, fibrosis, peptic ulcers.

DESCRIPTION

Naturbite l-glutamine is a food supplement, specifically an amino acid. Amino acids are essential for life, they are used by the body to build proteins. Proteins are necessary to form cells and are part of the chemical structure of hormones, enzymes, neurotransmitters and antibodies.

Al-Glutamine is used by **bodybuilding** athletes due to its muscle "building" effects.

In situations of trauma, surgery and other stressful situations, the muscles release glutamine into the bloodstream with the consequent loss of muscle mass. L-glutamine supplementation may be beneficial in cases of arthritis, **immunodeficiency diseases**, **fibrosis**, intestinal disorders, peptic ulcers, tissue damage due to radiation, cancer.
