

## L-Taurine 600 mg 60 Capsules

EAN: 8436583690048

FABRICANTE: NATURBITE

*L-aurine naturbite is an essential amino acid, which serves as a regulator of salt and water balance. Naturbite l-aurine participates in the detoxification of foreign chemicals and is also involved in the production and action of bile.*

### DESCRIPTION

**Naturbite l-aurine** differs from most other **amino acids** in that l-aurine is not incorporated into protein, but exists as a free amino acid in most animal tissues and is one of the most abundant amino acids where there is high electrical activity, in eyes, in the brain, muscles, heart, platelets, and the developing nervous system. It serves as a neurotransmitter (a chemical messenger for the nervous system), a regulator of salt and water balance (osmoregulation) within cells, and a stabilizer of cell membranes. It participates in the detoxification of foreign chemicals and is also involved in the **production and action of bile**.

Prices valid except for changes on our website. (IVA/VAT) included. Doc. Version bf-trf-G-20241121
