

Selenium 200 mcg + ACE 60 Tablets

EAN: 8436583690697

FABRICANTE: NATURBITE

Naturbite selenium also contains in its composition, vitamins A, C and E. Selenium is an essential trace element that protects against cardiovascular diseases and stimulates the immune system, collaborates in the production of antioxidant enzymes, which play an important role in the prevention of cell damage.

DESCRIPTION

Naturbite selenium is a food supplement, this mineral protects against **cardiovascular** diseases and stimulates the **immune system**. It collaborates in the production of special proteins, called **antioxidant** enzymes, which play a role in preventing cell damage. As an antioxidant, it slows down the cellular aging process. Some medical studies suggest that selenium can help increase fertility, especially in men, as this mineral has been shown to increase semen production and sperm motility. In addition, naturbite selenium also contains vitamins A, C and E.
