Naturdao is a food supplement, it uses vegetable DAO. Naturdao helps us fight excess histamine in case of diamine oxidase deficiency.

DESCRIPTION

Naturdao originated in 2018. Naturdao is a Spanish company that produces Naturdao, a food supplement to combat **diamine oxidase deficiency**.

DR Healthcare is a biomedical company specializing in medical nutrition and was founded in Barcelona (Spain) in 2007. Its core business is research, development, innovation, manufacturing, marketing and licensing of new nutraceutical products. , functional foods, active ingredients and other customized solutions. Since May 2021, the company is part of AB Biotek, a business division of Associated British Foods plc (ABF).

DR Healthcare's medical nutrition products are intended for the dietary management of chronic pathologies, physiological and/or metabolic dysfunctions, mainly associated with the metabolic disorder caused by the deficiency of the intestinal enzyme **Diamine Oxidase (DAO)**.

In addition, DR Healthcare manufactures Diamine Oxidase (DAO) enzyme for third parties, both of animal and plant origin, as well as for human and animal use. The company offers customized solutions for the pharmaceutical, food, veterinary and animal health industries.

Dr. Healthcare focuses on three main areas of research: the study of molecular biology and histamine at the physiological level, biomedical research on metabolic pathologies, and applied clinical research on DAO deficiency and its dietary management. Our company is engaged in the research, development, production and sale of nutraceutical and molecular diagnostic products, created through our own research and development process, and licensed for sale worldwide. In the European Union, our DAO enzyme is authorized as a "Novel Food", and in the US as a "New Dietary Ingredient". Our goal is to improve the health and well-being of people with pathologies related to DAO deficiency, through the creation of innovative, safe and effective nutraceutical products, which are produced under rigorous quality control and management.
