0767461391114-2

FABRICANTE: NATURDAO

Pack of 2 Naturdao Plus units. Improved formula, with a contribution of 1,000,000 HDU per tablet based on LegumActive, without forgetting its 8 vitamins and minerals of high bioavailability: Diaminoxidase and Catalase, Quercetin, Vitamin C, Vitamin B6, Vitamin B9, Vitamin B12, Copper and Zinc. It is suitable for people with histamine intolerance or diamine oxidase deficiency. It is a premium Legumactive formula.

DESCRIPTION

Naturdao Plus, your new ally to help balance and enhance your overall well-being. With all the enzymatic power of our plant-based DAO and its exclusive Legumactive formula combined with the ?????????????????? of its seven activated minerals and vitamins that will reinforce its action as cofactors and adjuvants of the DAO enzyme.

Naturdao PLUS Features :

- Provides 1,000,000 HDU daily to strengthen your digestive system.
- Contains 7 essential vitamins and minerals for complete action in activated form for high bioavailability:
- Powerful immunomodulator in superior form for better absorption capable of penetrating the cell membrane bilayer.
- Liposomal Vitamin C: Increases intracellular delivery and provides greater bioavailability and benefits.
- Vitamin B6 P-5-P Methylated.
- b9 Quatrefolic 5-MTHF Methylated.
- B12 Methylated Methylcobalamin: Methylated B vitamins are already in their active form, advancing their metabolization and utilization process in our body.
- Chelated Zinc Bisglycinate.
- Chelated Copper Bisglycinate: Chelated minerals are formulated to increase their bioavailability. They are absorbed intact and do not compete with other minerals in the intestinal tract.
- Maximum potency with 12,000 IU of catalase to metabolize histamine.
- Easy and convenient to take, 5 minutes before meals.
- 100% vegan.
- Cruelty-free.
- GMO free.

- You should consider whether your problems are due to your diet. Supplementation can be helpful, but it is also important to balance your diet.

Can I open the capsule if I have difficulty swallowing?

- No, you should not open the capsule. The coating is necessary for it to work properly.

Should I take DAO supplementation?

- Consider supplementation if you have low DAO levels, but don't forget to adjust your diet.

How do I know if I suffer from DAO deficiency?

- Try a low-amine diet for a few weeks or consult a professional to measure enzyme activity.

I'm pregnant, can I take it?

- Not recommended during pregnancy without medical supervision.

DAO supplementation during breastfeeding

There is no conclusive data, consult your pediatrician.

Difference between animal and plant DAO?

- Plant DAO has a much greater amine degradation capacity compared to animal DAO.
