

Collagen Peptides 254g

EAN: 807205115023

FABRICANTE: NATURE'S PLUS

Food supplement with collagen peptides that contains the 6 main collagens in the body (Types I, II, III, IV, V, X). Enhanced with enzymes and vitamin C.

DESCRIPTION

Collagen is a protein found in many tissues, especially connective tissue. The protein contributes to the maintenance of normal muscles and bones. Collagen peptides are derived from hydrolyzed collagen from grass-fed bovine, wild cod, free-range birds and eggshell membrane. All of these ingredients are sourced from certified suppliers and are considered sustainable resources. Nature's Plus ensures pure collagen peptides from natural sources obtained through hydrolysis, associated with enzymes (collagenases such as proteases and serratiopeptidase) that reinforce and ensure maximum absorption. The formula is free of artificial colors and preservatives.

What are the ingredients of Collagen Peptides?

Per level serving (5.8 g scoop): Hydrolyzed Grass-Fed Bovine Collagen, Fish Collagen, Chicken Collagen, Eggshell Membrane Collagen Concentrate 10,485 mg, Collagen Hydrolysis Supporting Enzyme Blend (Collagenases) 15 mg. Ingredients: Hydrolyzed Grass-Fed Bovine Collagen, Fish Collagen, Chicken Collagen, Eggshell Membrane Collagen Concentrate (including types I,II,III,IV,V,X); Collagen Stimulating Enzyme Blend (Collagenases).

Instructions for use

Dissolve 1 level scoop (10g) or 2 level scoops (20g) of COLLAGEN PEPTIDES powder in 200-250ml of water, juice or a hot or cold beverage or recipe of your choice.
