

ENZYME COMPLEX NATURLIDER 90 vcaps

EAN: 8435110850412 FABRICANTE: NATURLIDER

The Naturlider Enzymatic Complex is rich in digestive enzymes which improve digestion, help reduce dyspepsia, reduce stomach acidity.

DESCRIPTION

The **Naturlider enzyme complex** is a natural food supplement rich in digestive enzymes such as bromelain, a proteolytic enzyme which reduces the **acidity** of the stomach and the alkalinity of the intestine. That is why the naturlider enzyme complex **facilitates digestion**, is effective in treating heartburn, **dyspepsia**, **gastric ulcers**, and all of this naturally.

Enzymes are proteins that participate in chemical reactions in the body. They are produced endogenously, especially in the pancreas and other endocrine glands, and are present in raw foods. They pass into the digestive tract to break down food into its nutrients and then pass into the blood. If the digestive enzyme system does not work well, poor absorption of the nutrients that the body needs occurs and nutrition is not optimal. Regular supplementation with digestive enzymes can help our body.
