

## SODLIDER SUPEROXIDE DISMUTES NATURLIDER SOD 30 Vcaps

EAN: 8435110850689    FABRICANTE: NATURLIDER

*Naturlider superoxide dismutase helps the body fight against toxic external agents that can overload cells with free radicals, and that cannot be counteracted with the usual defense mechanisms.*

### DESCRIPTION

**Naturlider superoxide dismutase** is a food supplement that helps the body fight against toxic external agents.

Body cells and tissues are continually threatened by damage from toxic free radicals and reactive oxygen species (such as peroxides) that are produced during normal oxygen metabolism. The enzyme superoxide dismutase (SOD) present in our body, catalyzes the dismutation of superoxide into oxygen and hydrogen peroxide. In this way it protects the cell from the harmful reactions of superoxide, being an important antioxidant defense.

S.O.D.Lider, contains this enzyme, which together with a balanced diet, helps the body to fight against agents toxic external substances that can overload cells with free radicals, and that cannot be counteracted by usual defense mechanisms.
