DESCRIPTION

What is maca and what is it used for?

Naturmil Maca has aphrodisiac effects on men and women. It increases libido and improves vigor and sexual desire.

Maca is a plant that has its origins in Peru, specifically it is grown in the highest mountains of Peru and Bolivia, hence it is also called Peruvian maca.

Maca is a medicinal plant. The benefits of maca lie in its roots. Maca has proteins, carbohydrates, calcium, phosphorus, iodine, iron, vitamin B and vitamin C. Maca contains macadamias as active ingredients, which act on the hypothalamus and adrenal glands, thereby regulating hormonal levels and therefore providing an increase in energy and virility.

Naturmil maca is beneficial for both men and women, for both sexes it has aphrodisiac effects, including:

- Increases sexual desire or libido and virility
- Improves sperm production
- Natural remedy for sexual impotence
- Increases female fertility

What properties does Naturmil maca have?

Naturmil maca contains zinc, which contributes to normal fertility and reproduction and to the maintenance of normal testosterone levels.
