Does Naturtint permanent dye contain silicones, parabens and/or ammonia?

No, Naturtint dye does not contain silicones, parabens or ammonia. This formulation reflects the brand's commitment to hair health, providing long-lasting and gentle colouring that respects the integrity of the hair.

Is ammonia-free dye made from natural ingredients?

Yes, it is the first national Biobased hair color certified by the USDA. Ammonia-free, it prevents itching and dryness. With a high percentage of natural ingredients.

How do I choose my ammonia-free hair dye shade?

With Naturtint permanent ammonia-free gel dye you can darken your hair as much as you want. As it does not contain ammonia, and thus cares for and protects your hair, if you want to lighten it, you will have to go two shades at a time. Remember to choose your shade well until you reach the desired color.

Does the pack include a natural quinoa mask?

Yes, it includes the natural quinoa mask, the mask is formulated with 99% natural ingredients. Quinoa contains the eight essential amino acids for hair and fixes the color 20% more, achieving more intense and longer lasting tones.

Is ammonia-free permanent dye cruelty-free?

The ammonia-free permanent dye is manufactured following cruelty-free practices, which means that at no point in its production are tests carried out on animals, ensuring its commitment to respect and animal protection.

Is ammonia-free permanent dye suitable for vegans?
