

Nodacil Gel 15 ml x 10 Sachets

EAN: 8425652550611 FABRICANTE: NOVADIET

Fast and effective relief of symptoms related to heartburn.

DESCRIPTION

What is Nodacil?

It is a dietary supplement based on Magnesium with sweeteners.

What is Nodacil used for?

Nodacil Gel contains magnesium which contributes to electrolyte balance, therefore it is useful for gastric acidity.

How to take Nodacil?

Take one sachet 30-60 minutes after main meals.

Recommended daily dose: 1-2 sachets.

Shake before opening.

Benefits of taking Nodacil

The sensation of heartburn after meals is caused by the reflux of gastric contents, which are acidic, into the esophagus (an organ not prepared to contain acids).

This occurs due to a failure in the barrier mechanism that separates the esophagus from the stomach. The factors that promote poor functioning of the lower esophageal sphincter are numerous and varied, such as lying down after eating, obesity, tobacco and alcohol, large meals, stress, wearing tight clothing around the waist, some drugs, certain diseases such as hiatal hernia and some foods such as coffee, tea, cola drinks, carbonated drinks, chocolate, mint, citrus fruits, garlic, peppers, etc.

Nodacil Gel is your fast and effective relief from symptoms related to heartburn.

What is Nodacil made of?

Nodacil Gel contains magnesium salts (magnesium carbonate and magnesium trisilicate), calcium salts (calcium carbonate), sodium alginate, pectins, xanthan gum and peppermint essential oil.

Ingredients

Prices valid except for changes on our website. (IVA/VAT) included. Doc. Version bf-trf-G-20241122
