

Indicated for symptoms caused by irritable bowel syndrome, such as diarrhea, constipation or alternating between both, and excessive gas formation that causes abdominal distension, among others.

DESCRIPTION

Irritable Bowel Syndrome (IBS), a very common problem.

IBS is the most common functional gastrointestinal disorder. It can occur at any age and is more common in women. Its clinical course alternates between symptomatic and symptom-free periods and has a significant negative impact on quality of life.

Experts say that IBS is a multifactorial syndrome that causes intestinal disorders. The most important factors include: mood disorders (depression), stress or anxiety, having suffered from gastrointestinal infections or following a poor diet.

Scientific studies show that in IBS the intestinal microbiota is altered (dysbiosis), which is responsible for chronic low-grade intestinal inflammation and increased intestinal permeability, which causes the appearance of typical IBS symptoms.

Abdominal pain, the main symptom, is usually crampy and of variable location. There are alterations in the bowel movement rhythm: diarrhea, constipation or alternating between the two and excessive gas formation that causes abdominal distension. There may also be other symptoms.

Experts recommend following a diet low in short-chain fermentable carbohydrates or FODMAPs (fermentable oligosaccharides, disaccharides, monosaccharides and polyols) for several weeks and then gradually reintroducing different foods.

Ingredients

Casperome® with Phytosome® technology (Boswellia serrata extract with soy lecithin, microcrystalline cellulose, silicon dioxide; titrated to >25% triterpenic acids and >10% β-boswellic acid), L-Glutamine, Bulking agent (maltodextrin), Freeze-dried Aloe vera (ratio 200:1), Affron® Saffron (ES, titrated to >3.5% lepticosalides®), Anti-caking agents (magnesium stearate, silicon dioxide), Probiotics (Bifidobacterium infantis, Bifidobacterium longum).

Cover: Water, Hydroxypropylmethylcellulose.

Nutritional information

PARACOLON 15 VCAP

EAN: 8425652550079

FABRICANTE: NOVADIET

For 1 capsule:

- Casperome®: 250 mg.
- Contribution of triterpenic acids: 62.5 mg.
- Contribution of β -boswellic acid: 25 mg.
- Affron®: 28 mg.
- Lepticosalides® contribution: 980 μ g.
- Bifidobacterium infantis: 5×10^6 cfu.
- Bifidobacterium longum: 5×10^6 cfu.
- L-Glutamine: 150 mg.
- Aloe vera: 30mg.

Contraindications

Its use is not recommended during pregnancy and breastfeeding.

Do not take this dietary supplement if you are allergic or intolerant to any of its ingredients.

Instructions for use

Take 1 capsule daily, with water.

Prices valid except for changes on our website. (IVA/VAT) included. Doc. Version bf-trf-G-20241119
