Resfree is an effective food supplement to relieve cold symptoms. Due to its vitamin C and zinc content, it increases the body's defenses.

DESCRIPTION

What is Resfree and what is it for?

It is a food supplement that helps relieve cold and flu symptoms. It is therefore indicated for respiratory problems of viral origin, helping to improve the general condition of the person.

What is the recommended daily dose of Resfree?

You must take one stick three times a day. Dissolve the content of the stick in a glass of water, stir and take it before breakfast, lunch and dinner.

What are the ingredients of Resfree?

Per 3 sticks: Maltodextrin, Acidulant (citric acid), Echinacea (750 mg), Olivactive® -olive leaf extract-(600 mg), Aromas, Propolis (225 mg), Sweeteners (acesulfame K, steviol glycosides), Elderflower (150 mg), Color (beta-carotene), Zinc Gluconate (zinc 10 mg, 100% NRV*), Anti-caking Agent (silicon dioxide), Vitamin C (80 mg, 100% NRV*) and Willow (75 mg) . *VRN: Nutrient Reference Values.

Does Resfree have contraindications?

If you are pregnant or lactating, its use is not recommended.

Do not take this food supplement if you are hypersensitive to salicylates or if you are allergic or intolerant to any of its ingredients.

It should be taken with food if you have stomach problems.

Its use is not recommended if you suffer from any disease of autoimmune origin.
