

NPro Regenhepat 120 Capsules

EAN: 8436532903953 FABRICANTE: NPRO

Restores the functionality of the liver when it is affected by oxidative stress, hyperpermeability, intestinal dysbiosis, viruses, or high levels of endogenous and exogenous toxins.

DESCRIPTION

What is Regenhepat?

It is a food supplement that intervenes in all phases of liver detoxification, enhancing phase 2 and especially its methylation, sulfation, glucuronidation and conjugation with glutathione pathways.

What is Regenhepat for?

For all types of liver disorders. Promotes bile secretion and regulation of homocysteine, histamine and transaminase enzymes. Useful in inactivating stress hormones, helping to reduce anxiety, phobias, depression, migraines, as well as excess androgens or estrogens and their consequences, polycystic ovary syndrome and endometriosis.
