

Sucrotec Magnesium 120 Caps

EAN: 8436532903694 FABRICANTE: NPRO

Provides microencapsulated magnesium (Sucrosomial), a technology that improves its bioavailability. Formulated with taurine, glycine, betaine and methylated B vitamins, which act as magnesium cofactors.

DESCRIPTION

NPRO Magnesium Sucrotec provides microencapsulated magnesium (liposome type) manufactured with a sucrosomial® release system to improve magnesium absorption. In addition, it incorporates cofactors involved in the chemical reactions in which magnesium participates, such as taurine, glycine, biotin and all the B vitamins, which optimize its bioavailability and improve its systemic efficiency.

What is NPRO Magnesium Sucrotec used for?

Magnesium and its cofactors protect mucous membranes and reduce the effects of dysbiosis, inflammation and intestinal hyperpermeability, Crohn's disease or type 2 diabetes. Its chronic deficiency is correlated with low hepato-renal detoxification capacity, immune and hormonal disorders, musculoskeletal dysfunctions and neuroinflammation.

Instructions for use

Recommended dosage 2-3 capsules per day.

Composition

Dosage for 2 capsules. Sidemag® (Sucrosomial Magnesium) elemental magnesium contribution 304mg 800 mg L-Glycine 200 mg L-Taurine 200 mg Vitamin B3 (400%CDR) 64 mg Vitamin B5 (400%CDR) 24 mg Vitamin B2 (400%CDR) 5.6 mg Vitamin B6 (400%CDR) 5.6 mg Vitamin B1 (200%CDR) 2.2 mg Vit B9 (Methylfolate) (200%CDR) 400 mcg Biotin (200%CDR) 100 mcg Vitamin B12 (Methylcobalamin) (200%CDR) 5 mcg.
