NUA Biological Innovations is specialized in food supplements. NUA sells omega 3 fatty acids, in which they guarantee the practically absence of heavy metals. NUA food supplements do not have doping substances, do not have saturated or trans fats, do not have cholesterol, vitamin A or vitamin D. NUA products are free of genetically modified organisms, do not have fish protein, are gluten-free and lactose-free.

DESCRIPTION

NUA Biological Innovations is a laboratory specialized in food supplements, an international leader in the development and commercialization of highly purified and concentrated marine omega-3 fatty acids (DHA and EPA). NUA food supplements are gluten-free and lactose-free.
