

## OLIGOVIOL A 150 ml

EAN: 8436031733310 FABRICANTE: NUTERGIA

*Food supplement based on a synergy of trace elements and enriched with zinc and silicon*

### DESCRIPTION

- Acid-base balance.
- Joint well-being.

### Indications

- In case of acid-base imbalance,
- At the level of the bone and joint system: demineralization states, fracture consolidation, osteoporosis, degenerative joint processes (arthrosis).
- As a support for demineralized acidic soil: soil A. (CHANBIO)

### Advantages

- Nutrients in their natural state
- Bioavailable trace elements.
- Concentrated formula
- **Sea water and patented lithothamnone extract, origin France.**
- No alcohol, no sweetener, no sugar, no artificial flavor

Prices valid except for changes on our website. (IVA/VAT) included. Doc. Version bf-trf-G-20241222

## OLIGOVIOL A 150 ml

EAN: 8436031733310 FABRICANTE: NUTERGIA

### Assets For 5 ml %GO(\*)

Bamboo 685 mg\*\*

- Silicon 12 mg

Zinc 1.5 mg 15

- Reference intakes

\*\* Dry plant equivalent

**OLIGOVIOL A is a bionutritional preparation of trace elements in ionic form. It is produced using an original manufacturing process that combines:**

- Lithomer®, an exclusive ingredient derived from the red algae, lithothame, a true natural concentrate of marine minerals and trace elements. Lithomer® is obtained through an exclusive process.
- A sodium-free seawater concentrate, very rich in trace elements.
- Zinc, an essential mineral for bone and joint health.

**OLIGOVIOL A also contains a bamboo extract, naturally rich in silicon, a trace element that participates in bone mineralization and the development of connective tissue.**

### Ingredients

Aqueous solution of trace elements (filtered water, concentrated sea water without sodium, standardized extract of lithothamium – Phymatolithon calcareum Pall., zinc, iron and copper gluconates, chromium chloride, manganese sulphate, selenium and sodium molybdate), acidity regulator: potassium hydroxide; bamboo extract (Bambusa arundinacea Willd.), acidifier: lactic acid; preservative: potassium sorbate.
