

Vitalmedix 60 ml

EAN: 728650093257

FABRICANTE: NUTRAMEDIX

VitalMedix is a synergistic blend of extracts made from Moringa grown organically on small farms in Zimbabwe and samento bark from the Peruvian jungle.

DESCRIPTION

Vitality and immune system.

The moringa leaf is the most nutritious part of the plant, offering many vitamins and minerals, along with iron and protein. These leaves have been used for many centuries to help maintain immune health and overall vitality. Our Samento extract is made from a rare pentacyclic chemotype of cat's claw and acts as a thermostat to help the body self-regulate an overactive or weak immune system. A healthy immune system is key to overall good health.

What is the composition of Vitalmedix?

Mineral water, ethanol (24%), Uncaria Tomentosa extract, Moringa oleifera extract.

What is the recommended daily dose of Vitalmedix?

Shake well before using. Start with 1 drop dissolved in 120 ml of water, 30 minutes before meals, gradually increasing up to 30 drops, up to twice a day.
