Okami is dedicated to the manufacture of bio products. Pre and pro training products, antioxidants, proteins and vegan products. Okami seeks to help you show the most animated version of yourself. Although it may seem like an ambitious statement, isn't that what we all seek in life?

DESCRIPTION

In 2016, the first sales of raw maca powder took place and since then, the company has grown rapidly, with constant emails and friendly but challenging negotiations. Now, in 2021, the company has two successful brands, Okami Bio and Your Karma Foods, and is committed to a sustainable economy. The current challenge is to continue growing and evolving, to become a customer-focused company.

Okami's goal is to change the traditional concept of "healthy". We know that if you are interested in this, it is because you are looking to make a change or maintain a healthy lifestyle. Okami supports you with all his energy, because he knows that this desire comes from you. If you don't like to follow rules, if you don't want to diet, or if you sometimes overdo it...then you're like us! Okami strongly believes in the freedom to choose what is best for you.

You just need to read the labels. It won't take long. Okami only uses natural, vegan and organic ingredients. And nothing more. Okami believes that simple is powerful, why do you need artificial ingredients?
