

Orthomol Immun 30 Envelopes

EAN: 8470002110694 FABRICANTE: ORTHOMOL

Orthomol immun is a food supplement that contains important micronutrients for the functioning and strengthening of the immune system such as vitamin C, D, A, E, B6, B12, folic acid, zinc and iron.

DESCRIPTION

What is Orthomol® Immun?

Orthomol® Immun is a food for special medical uses. For the dietary management of immune deficiencies of nutritional origin (for example, recurrent respiratory infections).

How to use

Take the contents of one sachet dissolved in 150 - 200 ml of still water daily, during or after a meal.

How long should I take Orthomol® Immun?

To meet the specific increased need for micronutrients, regular and long-term use is recommended. Consult your doctor about the duration.

Important observations

? Use only under medical supervision.

? The product is not suitable to be consumed as a sole food source.

? This product contains iodine. If you suffer from thyroid dysfunction, please consult your doctor before taking this product.

? If you suffer from oxalate kidney stones or certain diseases that cause increases in iron deposits in the body or glucose 6-phosphate dehydrogenase deficiency, consult your doctor before taking Orthomol® Immun.

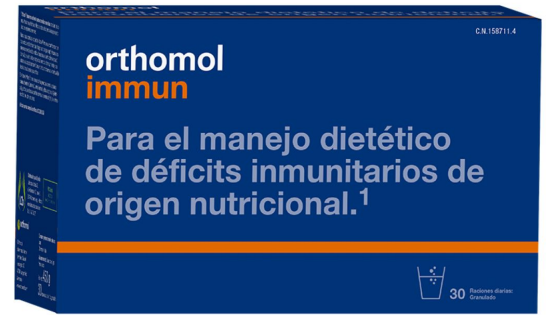

? Orthomol® Immun contains 165 µg of biotin per daily serving. If you are having a laboratory test (immunoassay), please inform your doctor and/or laboratory personnel that you take Orthomol® Immun, as biotin may affect the results of this test.

Other useful information

? Orthomol® Immun granules are free of lactose and gluten.

? Due to the content of riboflavin (vitamin B2), urine may appear yellow.

? This product contains beta-carotene (provitamin A) which has a strong coloring effect. Some stains, for example on clothing, are difficult to remove.

? The amount of vitamin C contained in Orthomol® Immun may occasionally cause an increase in the frequency of bowel movements.

Storage

Store Orthomol® Immun in a cool, dry place.

Instructions for use of Orthomol Immun

Take the contents of one sachet dissolved in 150-200 ml of still water daily, during or after a meal.
