

## Lactibiane Topic AD 125 ml

EAN: 3701145600465 FABRICANTE: PILEJE

*Lactibiane Topic AD is an emollient balm for dry skin with atopic tendency. It relieves and calms itching sensations and the need to scratch.*

### DESCRIPTION

**Dry skin with a tendency to atopy** is a reaction caused by an alteration in the skin barrier. Genetic or environmental factors may be the cause of this alteration, which can have a strong impact on quality of life.

PiLeJe has developed the first emollient balm in its Microbiota range to meet the needs of atopic-prone skin. Lactibiane Topic AD is suitable for infants, children and adults. Relieves and calms itching sensations and the need to scratch.

Lactibiane Topic AD is composed of several active ingredients for a **complete action** on atopic-prone skin:

- Lactobacillus ferment lysate **increases the diversity of commensal skin microbiota** and **maintains the balance of skin microbiota** .
- The prebiotic  $\gamma$ -glucooligosaccharide **protects the skin microbiota** .
- LPCa and vitamin B3 help **strengthen the skin barrier** .

Based on: *Lactobacillus ferment lysate* , Vitamin B3, Prebiotic  $\gamma$ -glucooligosaccharide, LPCa.

### Instructions for use

Apply Lactibiane Topic AD once or twice a day, spreading a thin layer on dry/atopic areas of the face and body. Suitable for infants, children and adults.
