FABRICANTE: PILEJE

Permealine is a food supplement that produces permeability at the level of the intestine. Permealine is indicated in case of diarrhea, constipation, gas, abdominal discomfort.

DESCRIPTION

What is Permealine from Pileje laboratories and what is it used for?

Permealine is a food supplement from Pileje laboratories. Permealine contains L-Glutamine, zinc, vitamin A and green tea. Vitamin A contributes to the maintenance of the mucous membranes. Zinc contributes to the proper functioning of the immune system.

What are the benefits of Permealine from Pileje laboratories?

Permealine is indicated for people who follow a diet low in fodmaps. Fodmaps are carbohydrates that are not fully digested in the intestine and therefore serve as food for bacteria in the intestine. This is how fermentation occurs, which produces gas, bloating and abdominal pain, diarrhea or constipation in people.

How do you take Permealine from Pileje laboratories?

Permealine is taken orally: Take one stick a day diluted in a glass of water, preferably during a meal. Take for twenty days and renew if necessary.

Does Permealine from Pileje laboratories have contraindications?

Permealine is contraindicated in pregnancy, lactation and in children under eighteen years of age. Caution should be taken due to its caffeine content.

What composition does Permealine from Pileje laboratories have?

The composition of Permealine is: L-glutamine, natural orange flavor (10%), maltodextrin, beta-carotene, Camellia sinensis green tea extract (leaves), zinc gluconate, natural flavor.
