

Drops with GABA, titrated plant extracts and Vitamin B6 that contribute to the normal functioning of the nervous system.

DESCRIPTION

The plants used in the composition of this product: passionflower, valerian and California poppy, are available in a more appropriate way, by presenting them in the form of titled extracts, since in this way we guarantee a greater and constant presence of their most outstanding active ingredients.

It also includes GABA and vitamin B6, which **contributes to the normal functioning of the nervous system**.
