

ARTICHOKE 100 TABLETS 400 MG

EAN: 8424409319112 FABRICANTE: PLANTAPOL

The Plantapol artichoke is a natural food supplement that offers us all its properties at the level of the liver. It is hepatoprotective, great for the lazy liver or as a liver detoxifier, depurative, diuretic.

DESCRIPTION

The **Plantapol artichoke** is rich in cynarin which, in addition to aromatic acids and flavonoids, is the main responsible for the properties of the artichoke.

The artichoke acts on the metabolism of the liver, facilitating its detoxification both in the case of **lazy liver, fatty liver**. It also acts as a detoxifying or **depurative** in the event that a lot of alcohol has been drunk.

The artichoke increases **bile secretion**, which is why it also relieves **constipation**.
